THE local agent for the Telegraph' Companies courtequaly informs us that the Spanish Authorities have agreed to the proposals of the Directors of the Eastern Extension Telegraph Company, to adopt a Press rate between Hongkong and Manile, to come into force from to-day. BEFORE Mr H. E. Wodehouse at the Magistracy this morning, a coolis, and three children were charged with entering a house at 72 Market Street, and steal. ing a quantity of locks, hinges, &c. The houses are at present closed up, and are in the custody of the Banitary Board. The coolie had two baskets, presumably for carrying off the spoil. Mr Wodehouse sentenced the man to three months' imprisonment with hard labour. The children will be imprisoned for seven days and will receive eight strokes each with a ratian.

THE meeting of members called by the

Committee of the Chamber of Commerce, for the purpose of electing a representative of the Chamber to the Legislative Coudeil, &c., as in place of bad smells it leaves a in place of Mr. Whitehead, will be held to-morrow. Perhaps the short tenure of office has something to do with the lack of competition which has been apparent among members. The disturbance in business caused by the appearance of Asistic typhus in our midst may furnish another reason for the absence of candidates. However this may be, we are informed that a general feeling of 'drift' has characterised all the action or inaction taken in this. matter. To fill an acting appointment for, only six months is perhaps considered scarcely worth the trouble of posing as a candidate, with the prospect of being defeated. Hence the general acquissoence of all parties, so far as we can learn, in the acceptance of Mr A. MacConschie as the locum fenens of Mr Whitehead. The names of Mr Joseph (P. & O. Co.). Mr J. J. Francis, and Mr Dairymple, have been mentioned; and had the election been for a term. Mr Joseph or Mr Frencis might have reised a little pother over the ballot, Meantime, however, Mr Mactionschie is said to hold the field. As a business man, of undoubted integrity and honesty of purpose, Mr MacConachie may be re-Half an conce (about one table-spoonful) garded as an eminently safe man. It appears that this will absorb the whole of the reserve of the former season, and leave a deficit of six chests to be made up by the manufacture of the next. At the close of the present year there will be a reserve of only 26 chests of Benarca opium. The Board of Revenue in drawing attention to this depletion, observes that the reserve which amounted to nearly 50,000 chests at the beginning of 1890, and the normal amount of which has been fixed the Government, of India at 30,000 chests, will then entirely disappear. depletion has taken place concurrently with a reduction in the sales, amounting to about 12,000 cheata. . dallada . muonilai

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet . the wants of many students of Chinese caused by the discontinuance of 'Notes and Queries on China and Japan,' has reached its Twenty-first Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

unoful. The Review department receives special attention, and endeavours are made to present a careful and concise record of Idterature on China etc., and to give recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China

The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Messre Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Pafker, Playfair, Giles, Piton, and Taylor,—all well-known names, indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per annum, postage included - payable in ad-Orders for binding volumes will be promptly attended to; Address, Manager, Uhina Mail Office."

The China Review for September-October fully maintains the high standard of excellence which characterises that publiand altogether forms a very luteresting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and H appredative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting. - North-China
